

Course Name:

Bloodborne Pathogen and Hazard Communications

Course Description:

This program is an annual requirement by the PA Department of Health. It reviews proper safety techniques, the user of barrier devices and protective equipment, exposure precautions and the procedures for reporting exposure. The second part of the program is to review the hazardous materials stored in the building and throughout our coverage area. This program is 2 hours. For more information please contact Cetronia's Education Department at caceducation@cetronia.org
